

GlamReserve – Complete Requirements & System Design Document

Platform Name: GlamReserve Version: 1.3 (Final Consolidated) Date: May 19, 2026

Target Market: South Africa (with phone-first design)

1. Executive Summary

GlamReserve is a multi-tenant SaaS platform for salons, barber shops, animal grooming centers, day spas, and massage parlors.

Facility owners can manage services, staff, appointments, promotions, gallery, and social enquiries from one central mobile app. Clients get a beautiful booking experience. Each facility runs on its own subscription.

Key Business Rules:

- **Client service payments are 100% offline (cash, card, EFT at venue).**
- **Only facility subscription is paid online.**
- **Single subscription tier: R65 per month per facility.**
- **Owners can manage multiple facilities from one account.**
- **Strong multi-tenancy with data isolation.**

2. Technology Stack

- **Mobile Apps: React Native (single codebase – Client, Owner, Staff)**
- **Backend: Next.js 15 (App Router) deployed on Vercel**
- **Database: Supabase PostgreSQL + Row Level Security (RLS) + Realtime + Storage**
- **Auth: Supabase Auth (Phone OTP primary + Google + Facebook)**
- **Payments: PayFast + 1Voucher support**
- **Notifications: Twilio SMS + Firebase FCM (or OneSignal)**
- **Hosting: Vercel + Supabase**
- **Landing Page: Next.js public site**

3. User Roles

- **Super Admin – Platform owner**
- **Facility Owner – Can own multiple facilities**
- **Staff – Works at one facility**

- **Client – Books services**
- **Guest – Can browse**

4. Core Features

4.1 Global Service Catalog

- **Maintained by Super Admin**
- **Owners can select services and customize (price, duration, name, image, add-ons)**

4.2 Facility Management

- **Full profile (address, GPS, description, policies, accepted payments)**
- **Operating hours with split shifts and exceptions**
- **Image Gallery with enforced limits (configurable by admin)**
- **Branding (logo + colors)**

4.3 Staff Management

- **Invite via phone/email**
- **Assign services they can perform**
- **Manage availability (weekly + exceptions)**
- **Commission settings (optional)**

4.4 Appointment Management

- **Real-time availability calendar**
- **Client booking wizard with “Pay at venue” notice**
- **Status workflow: Pending → Confirmed → Arrived → In Progress → Completed → Paid (manual)**
- **Drag & drop for owners/staff**
- **Reminders (24h & 2h before)**

4.5 Promotions & Vouchers

- **Facility promotions**
- **Platform & facility voucher system (subscription discounts + client service discounts)**

4.6 Social Media Integration

- Facebook & Instagram enquiries → webhook → app inbox
- Convert enquiries to appointments

4.7 Subscription System

- Price: R65 per facility per month
- Managed by Super Admin
- Payment via PayFast + 1Voucher
- 14-day free trial (configurable)
- Auto-renewal with reminders
- Grace period: 7 days

4.8 Notifications

- SMS (Twilio)
- Push notifications
- Subscription expiry alerts

4.9 Public Landing Website

- Professional marketing site
- Clear pricing (R65/month)
- Features showcase
- Testimonials
- CTA for owner sign-up

5. Non-Functional Requirements

- Strong Row Level Security for multi-tenancy
- Mobile-first design
- POPIA compliant
- Fast performance
- Image upload limits enforced

6. Detailed User Stories

Authentication & Onboarding

- Owner and Client signup with phone OTP, Google, Facebook

- **Guided onboarding for new owners**

Facility & Services

- **Create/manage multiple facilities**
- **Browse & customize global service catalog**
- **Custom services support**

Staff

- **Invite and manage staff**
- **Service assignment and availability control**

Appointments

- **Client discovery and booking**
- **Owner/staff calendar management**
- **Full status tracking and notifications**

Marketing

- **Promotions, vouchers, social enquiries integration**

Subscription

- **Pay R65/month via PayFast or 1Voucher**
- **Admin price management**

Client Experience

- **Appointment tracking, history, gallery viewing**

7. Technical Design Highlights

- **Strict multi-tenancy using facility_id + RLS**
- **Supabase Storage with upload guards**
- **PayFast webhooks for subscription status**
- **Realtime updates for appointments and availability**
- **Edge Functions for heavy logic (image limits, webhooks)**

8. Future Phases (Out of Scope for MVP)

- **Online deposits**
- **Retail inventory/POS**

- **Advanced loyalty system**
 - **Multi-language support**
-

End of Document

This document consolidates all conversations we had — from initial high-level design, database ideas, payment clarifications (offline client payments, R65 subscription, PayFast + 1Voucher), landing page, user stories, and technical architecture.

GlamReserve – User Stories Document

Version: 1.0 **Date:** May 2026

This document contains **detailed, prioritized user stories** for the GlamReserve platform, written in standard Agile format:

As a [User Role] I want [feature/action] So that [benefit/reason]

1. Authentication & Onboarding

Auth - 001 As a **new Facility Owner**, I want to sign up using my mobile number (OTP), Google, or Facebook, so that I can quickly create an account without friction.

Auth - 002 As a **Client**, I want to register/login with phone OTP as the primary method (with Google/Facebook as alternatives), so that I can book appointments easily.

Auth - 003 As a **Super Admin**, I want a secure admin portal with separate login, so that I can manage global settings, pricing, and users.

Onboarding - 001 As a **new Facility Owner**, I want a guided onboarding wizard after signup, so that I can create my first facility, select services, and set operating hours quickly.

2. Facility Management (Owner)

Facility - 001 As a **Facility Owner**, I want to create and manage multiple facilities from a single account, so that I can oversee all my locations centrally.

Facility - 002 As a **Facility Owner**, I want to edit facility details (name, type, address, GPS, description, policies, accepted payments), so that my business information is accurate.

Facility - 003 As a **Facility Owner**, I want to set and manage operating hours (including split shifts and holiday exceptions), so that the system knows when we are open.

Facility - 004 As a **Facility Owner**, I want to upload and manage a gallery of images (interior, exterior, team, before/after) with enforced limits based on subscription, so that potential clients can see my facility.

3. Services Management

Services - 001 As a **Facility Owner**, I want to browse the global service catalog and add services to my facility, so that I don't have to create common services from scratch.

Services - 002 As a **Facility Owner**, I want to customize added services (price, duration, name, description, image, add-ons), so that pricing and offerings reflect my business.

Services - 003 As a **Facility Owner**, I want to create fully custom services not in the catalog, so that I can offer unique treatments.

Services - 004 As a **Super Admin**, I want to manage the global service catalog (add/edit/remove services), so that it remains relevant and high quality.

4. Staff Management

Staff - 001 As a **Facility Owner**, I want to invite staff members via phone number or email, so that they can join my facility.

Staff - 002 As a **Facility Owner**, I want to assign specific services that each staff member is qualified to perform, so that only capable staff appear in booking slots.

Staff - 003 As a **Facility Owner**, I want to manage staff availability (weekly schedule + time-off + blocks), so that the booking system shows accurate slots.

Staff - 004 As a **Staff Member**, I want to view my personal work schedule and today's appointments, so that I know what I need to prepare for.

5. Appointment Management

Booking - 001 As a **Client**, I want to search and discover facilities by location, service type, or category, so that I can find suitable options near me.

Booking - 002 As a **Client**, I want to view real-time availability, staff options, and service details before booking, so that I can choose the best slot and professional.

Booking - 003 As a **Client**, I want a clear summary showing “Payment will be collected at the facility” before confirming a booking, so that there are no surprises.

Booking - 004 As a **Facility Owner / Staff**, I want a powerful calendar (day/week/staff view) with drag-and-drop functionality, so that I can efficiently manage appointments.

Booking - 005 As a **Facility Owner / Staff**, I want to change appointment status (Pending → Confirmed → Arrived → In Progress → Completed → Paid), so that I can track the full journey.

Booking - 006 As a **Client**, I want to receive SMS and push notifications for booking confirmation, reminders (24h & 2h), and status changes, so that I don’t miss appointments.

Booking - 007 As a **Client**, I want to view, reschedule, or cancel my appointments within policy, so that I have full control over my bookings.

6. Promotions & Vouchers

Promo - 001 As a **Facility Owner**, I want to create and manage promotions (discounts, special offers) with images and validity periods, so that I can attract more clients.

Voucher - 001 As a **Super Admin**, I want to generate promotional voucher codes for subscriptions, so that I can run marketing campaigns.

Voucher - 002 As a **Facility Owner**, I want to create service discount and gift vouchers for my clients, so that I can run loyalty programs.

Voucher - 003 As a **Client**, I want to redeem vouchers during booking or at the facility, so that I can enjoy discounts.

7. Social Media Enquiries

Enquiries - 001 As a **Facility Owner**, I want Facebook Messenger and Instagram DM enquiries to automatically appear in my app’s inbox, so that I don’t miss potential customers.

Enquiries - 002 As a **Facility Owner**, I want to reply to enquiries directly from the app or convert them into appointments, so that I can close leads faster.

8. Subscription & Billing

Subscription - 001 As a **Facility Owner**, I want a clear subscription page showing R65/month per facility with PayFast and 1Voucher payment options, so that I can activate my facility.

Subscription - 002 As a **Facility Owner**, I want to receive reminders before my subscription expires, so that my facility doesn't get deactivated unexpectedly.

Subscription - 003 As a **Super Admin**, I want to update the global subscription price (default R65) and trial duration, so that I can adjust pricing when needed.

Subscription - 004 As a **Super Admin**, I want to view all facilities and their subscription status, so that I can manage the platform effectively.

9. Client Experience & CRM

Client - 001 As a **Client**, I want to track all my appointments and see digital receipts in the app, so that I have a complete history.

Client - 002 As a **Client**, I want to browse facility galleries and read reviews, so that I can make informed booking decisions.

Client - 003 As a **Facility Owner**, I want basic client management (history, notes, preferences), so that I can provide better personalized service.

10. Public Website / Landing Page

Website - 001 As a **potential Facility Owner**, I want to visit a professional landing page that clearly explains the benefits and pricing (R65/month), so that I can decide to sign up.

Website - 002 As a **potential Client**, I want to see a "For Clients" section with app download links and how the platform works.

11. Notifications & Communication

Notify - 001 As any **user**, I want timely SMS and push notifications for important events (bookings, reminders, subscription, promotions), so that I stay informed.

12. Analytics & Reporting

Analytics - 001 As a **Facility Owner**, I want basic analytics (bookings, revenue summary, top services, no-show rate), so that I can make better business decisions.

Prioritization Suggestion (MVP)

Must Have (MVP): Auth, Facility creation, Service selection & customization, Staff management, Appointment booking + calendar, Notifications (SMS + Push), Subscription with PayFast + 1Voucher, Basic landing page, RLS security.

Should Have: Gallery with limits, Promotions, Social enquiries integration, Client app discovery.

Could Have: Advanced analytics, Loyalty system, Recurring appointments, Gift vouchers.
